PROFILE

Aspiring Software Engineer with expertise in front-end and full-stack development. Skilled in React, JavaScript, and Node.js, I enjoy building scalable and user-friendly applications. Recently developed a WhatsApp Web clone, showcasing real-time chat functionality and UI/UX optimization. Passionate about learning new technologies and innovating solutions that enhance digital experiences. Looking forward to contributing to impactful projects in the tech industry.

PROJECTS

WhatsApp Web Clone

Technologies: React, Express.js, Material-UI, MongoDB

- Developed a real-time chat application with a responsive UI.
- Implemented user authentication and secure messaging.
- Integrated WebSockets for instant messaging and status updates.
- Designed an intuitive interface using Material-UI for a seamless user experience.

EXTRACURRICULAR ACTIVITIES

Member, Enteract – The Dramatics Club of NIT Durgapu

- Actively participated in theatrical performances and street plays.
- Winner of street play competitions at IIT Dhanbad and IIT Patna.

HOBBIES & INTERESTS

- **Stock Market Enthusiast – Passionate about analyzing market trends and investment strategies.**
- **Nature Photography – Enjoy capturing landscapes and wildlife through photography.**
- **Lifelong Learner – Constantly exploring and acquiring new skills in technology and beyond.**
